

INSTRUCTIONS FOR FACIAL ANALYSIS PHOTOS

The following seven photos are required – you may send more if you are dealing with a child who cannot pose – up to ten photos if necessary.

1. Front on no smile
 2. Front on with a natural smile
 3. Front on with a wide fake smile (have patient show both their top and bottom teeth)
 4. Front on hair raised up so hairline is fully visible (pull hair back **tightly with two hands**)
 5. Profile right - hair pulled back to show forehead shape from bridge to hairline – **left** arm that is holding hair back to be pulled out of view
 6. Profile left - hair pulled back to show forehead shape from bridge to hairline - **right** arm that is holding hair back to be pulled out of view
 7. Front on with a frown to show lines between eyes
-
- All photos close enough so face almost fills the screen
 - All photos with head held straight - both side to side and up and down
 - Smile to show teeth very clearly - top and bottom row (have the patient do a "fake" wide smile)
 - Observe natural non-photo smile and send the following information - do teeth fill the mouth or is there considerable shadow on the sides (compact smile)
 - Observation of facial lines to be included (these don't show clearly on photos - have the patient frown to see what lines appear)
 - Photos to be sent attached to email as a .jpg file – ensure each photo has the first name of the patient and a separate number so they download easily at this end eg Jack01, Jack02 etc
